

## Ensure your work place is safely lit and secure...

**NEW  
18V**  
Battery powered  
UtilityLite

### Battery Powered

# TradeLite

Combining our UtilityLite with market leading 18v battery packs gives an unparalleled onsite LED lighting solution! Simply plug a 18v battery (DeWalt or Milwaukee) into our patented system and get over 4 hours continuous lighting (battery size dependent). No more tangled mess of cables and broken bulbs as found with traditional festoon lighting systems. UtilityLite's Festoon LED lighting is trouble free and easy to store between jobs.

### Features:

- On a reel for easy storage
- Brighter/stronger consistent light
- Maintenance free
- Easy to use and install
- TANGLE FREE!

### Uses:

**Milwaukee**  
or  
**DeWalt**
